FOR IMMEDIATE RELEASE

North Kingstown, RI - (October 9, 2026): The Ocean State Community Electricity program is announcing new winter electricity supply prices to go into effect for North Kingstown residents and businesses beginning with customers' November 2026 meter read. **The program's winter pricing for the default electricity will cost less than RI Energy's residential supply, while continuing to offer 5% more clean energy from RI based sources.**

The program is offered to the North Kingstown community via the town's selected consultant, Good Energy, who also manages the seven other active community electricity programs in the state, including neighboring South Kingstown and Narragansett.

The new prices will be fixed for six months through customers' May 2027 meter read. Current participants do not need to take any action to remain in the program and receive the new pricing for the product in which they are currently enrolled.

The program is pleased to confirm that participants will receive all bill credits recently announced by the Governor's Executive Order and the RI Energy Hold Harmless settlement. These include a roughly \$20 credit for residential customers for months January through March and a \$14 credit beginning October 2026 (for a typical customer using 500 kWh monthly).

While the program's supply prices, like that of RI Energy's supply, are increasing this winter, the bill credits mentioned above will keep customers' total bills over the winter pricing period at or below their total cost from this summer.

The additional renewable energy in the program is sourced entirely from local Rhode Island projects, including the Narragansett Bay Commission wind turbines at Fields Point in Providence, solar in West Greenwich and additional wind turbines in Coventry. Program participants are projected to purchase more than 2206 megawatt-hours of voluntary renewable energy annually, equivalent to displacing over 1.5 million pounds of carbon dioxide emissions.

The program expands community members' choices for electricity supply, and residents and businesses can exercise that choice at any time:

- Participants may switch between Ocean State Community Electricity options at any time, such as to the lower-priced Basic or to the 100% renewable Plus product.
- Participants may leave the program at any time and return to RI Energy supply, without fees or penalties.
- Non-participants may join the program at any time

To make a change to your participation, leave or join the program, use the form at OceanStateCommunityElectricity.com or call the supplier, NextEra Energy Services at 1-888-880-3211.

See table on next page below with all product options and new prices. Prices take effect as of the November meter read. To find your November meter read date, open your RI Energy bill you receive in October, go to Page 2 and just above the heading "Supply Details" you will see "Next meter reading on our about_____."

Residential Pricing Beginning November 2026:

RI Energy's residential Last Resort Service price is 17.029 ¢/kWh from October 1, 2026 through March 31, 2027 and includes no additional renewable energy.

Ocean State Community Electricity				
	Basic	Standard (Community Default)	50	100
Price (¢/kWh)				
Residential	16.705	16.929	17.108	19.344
Low-Income*	11.6935	11.8503	11.9756	13.5408
Voluntary RI New Renewables	No additional renewable energy	Adds 5% voluntary renewable energy	Adds voluntary renewable energy to total 50%	Adds voluntary renewable energy to total 100%
Duration	6 months: November 2026 until May 2027 Meter Reads			

*For customers on A-60 low-income distribution rate from RI Energy, they receive a 25-30% reduction on their entire electricity bill. The "Low-Income" supply rates shown above factor in a 30% discount on regular residential price. Note that these prices will not appear on the bill but will be the effective rate once the 30% bill discount is applied to the total. Learn more at <https://www.rienergy.com/site/ways-to-save/assistance-programs/discount-rates>.

Commercial & Industrial Prices

RI Energy's small commercial Last Resort Service price is 16.581 ¢/kWh from October 1, 2026 through March 31, 2027 and the industrial Last Resort Service price is 12.098 ¢/kWh for October 2026 and changes monthly.

Ocean State Community Electricity				
	Basic	Standard (Community Default)	50	100
Price (¢/kWh)				
Commercial	16.596	16.816	16.992	19.190
Industrial^	17.961	18.169	18.335	20.415
Voluntary RI New Renewables	No additional renewable energy	Adds 5% voluntary renewable energy	Adds voluntary renewable energy to total 50%	Adds voluntary renewable energy to total 100%
Duration	6 months: November 2026 until May 2027 Meter Reads ^Industrial prices change every 3 months: November until February meter reads.			

In 2026, Ocean State Community Electricity joined a group of municipalities who had launched the first municipal aggregation programs in Rhode Island: Barrington, Central Falls, Narragansett, Newport, Portsmouth, Providence, and South Kingstown all of which also work with Good Energy as their consultant and share a common electricity supplier and pricing.
